

APPENDIX – Toxicology

---

**Scope of Autopsy Blood Drug Screen (AUTB)**

<u>GC/FID (#)</u>	<u>Immunoassay</u>	<u>Polar HPLC (#)</u>	<u>Basic Drugs (HPLC) (##)</u>	
Acetone	Amphetamine	Acetaminophen	Amiodarone	Meperidine
Ethanol	Barbiturates	Amobarbital	Amitriptyline	Mesoridazine
Isopropanol	Benzodiazepines*	Barbital	Brompheniramine	Methadone
Methanol	Cocaine Metabolite	Butabarbital	Bupropion (Metabolite)	Metoprolol
	MDA	Butalbital	Chlorpheniramine	Mirtazepine
	MDMA	Caffeine	Chlorpromazine	Nortriptyline
	Methadone	Carbamazepine	Citalopram	Olanzapine
	Methamphetamine	Pentobarbital	Clomipramine	Oxycodone***
	Opiates**	Phenobarbital	Clozapine	Paroxetine
	Codeine	Phenytoin	Cocaine Parent	Pentazocine
	Hydrocodone	Salicylates	Codeine***	Prochlorperazine
	Hydromorphone		Cyclobenzaprine	Promazine
	Morphine	<u>Polar HPLC(##)</u>	Desipramine	Promethazine
	Oxycodone	Carbamazepine epoxide	Dextromethorphan	Propafenone
	Phencyclidine	Ethosuximide	Diltiazem	Propoxyphene
	Propoxyphene	Felbamate	Diphenhydramine	Propranolol
	THC Metabolites	Lamotrigine	Disopyramide	Protriptyline
		Levetiracetam	Doxepin	Quinine/Quinidine
		Methaqualone	Flecainide	Sertraline
		Oxcarbazepine Metab.	Fluoxetine	Thioridazine
		Primidone	Fluvoxamine	Tramadol
		Theophylline	Hydrocodone	Trifluorperazine
		Thiopental	Imipramine	Trimipramine
			Loxapine	Triprolidine
			Maprotiline	Venlafaxine
				Verapamil
				Quetiapine

\*Most Benzodiazepines detected. Most likely not clonazepam, Flunitrazepam or triazolam.

\*\*Opiates detected only at levels over 100 ng/ml. Both free and conjugated opiates are detected.

\*\*\*HPLC detects only free (unconjugated) codeine and oxycodone.

#Quantitation reported.

##Quantitation available at Warde Lab for additional charge.
