

Scope of Autopsy Urine Drug Screen (AUTU)

Immunoassay**

Amphetamine
 Barbiturates
 Amobarbital
 Barbital
 Butobarbital
 Butalbital
 Pentobarbital
 Phenobarbital
 Secobarbital
 Benzodiazepines*
 Cocaine Metabolite
 Ethanol
 MDA
 MDMA
 Methadone
 Methamphetamine
 Opiates
 Codeine
 Hydrocodone
 Hydromorphone
 Morphine
 6-Acetylmorphine
 Oxycodone
 Phencyclidine
 Propoxyphene
 THC Metabolites

Basic Drugs

Acetaminophen
 Amitriptyline
 Amantadine
 Atropine
 Brompheniramine
 Bupropion (Metabolite)
 Caffeine
 Carbamazepine
 Carisoprodol
 Chlorpheniramine
 Chlorpromazine
 Citalopram
 Clindamycin
 Clomipramine
 Clozapine
 Cocaine Parent
 Cyclobenzaprine
 Desipramine
 Dextromethorphan
 Diltiazem
 Diphenhydramine
 Doxepine
 Ephedrine/Pseudoephedrine
 Erythromycin
 Fluoxetine
 Gabapentin
 Guaifenesin
 Imipramine
 Ibuprofen
 Ketamine
 Labetalol
 Lidocaine
 Maprotiline
 Meperidine
 Meprobamate
 Mesoridazine
 Methaqualone
 Methocarbamol
 Metoclopramide
 Metoprolol
 Mirtazapine
 Naltrexone
 Nicotine
 Nortriptyline
 Olanzapine
 Oxycarbazepine
 Oxycodone
 Paroxetine
 Pentazocine
 Phentermine
 Phenylpropanolamine
 Phenytoin
 Prochlorperazine
 Promazine
 Promethazine
 Propranolol
 Protriptyline
 Quetiapine
 Quinine/Quinidine
 Ranitidine
 Sertraline
 Strychnine
 Sumatriptan
 Thioridazine
 Tramadol
 Trazodone
 Triamterene
 Trifluoperazine
 Trihexyphenidyl
 Trimethobenzamide
 Trimethoprim
 Trimipramine
 Venlafaxine
 Verapamil

*Most Benzodiazepine detected. Most likely not clonazepam, flunitrazepam or triazolam.

**Quantitation available at Warde Medical Laboratory for additional charge.

Scope of Autopsy Vitreous Testing (AUTQNT)

GC/FID (#)

Acetone
 Ethanol
 Isopropanol
 Methanol
